Re Item V

Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

The following documents (D1-D4) are referred to in this WO-ISA; the numbering will be adhered to in the rest of the procedure:

- D1: US-A-3 573 886 (GOETZINGER NICHOLAS J ET AL) 6 April 1971 (1971-04-06)
- D2: DE 28 02 489 A (BAYER AG) 26 July 1979 (1979-07-26)
- D3: GB-A-2 001 849 (ICI LTD) 14 February 1979 (1979-02-14)
- D4: US 2001/007161 A1 (BEALS DONNA J ET AL) 12 July 2001 (2001-07-12)

V.1 Novelty (Article 33(2) PCT)

Document D1 discloses (see claim 1) a polishing composition having an average particle size from 0.5-20 microns comprising a rare earth oxide (La₂O₃, CeO₂, Pr₆O₁₁, Nd₂O₃, Sm₂O₃, see Example 1) and from 0.1-75 wt% of calcium metasilicate. A claim to a composition for a particular use should be construed as meaning a composition which is suitable for the stated use. Therefore a known product which prima facie is the same as the composition defined in the claim and is in a form in which it is in fact suitable for the stated use, though it has never been described for that use, would deprive the claim of novelty. The subject-matter of claims 1-4 and 6 is therefore not new (Article 33(2) PCT).

V.2 Inventive step (Article 33(3) PCT)

Oral compositions comprising a mixture of a lanthanide metal oxide and a further abrasive are known (see example 5 of D2). The use of oral compositions comprising a lanthanide metal in general for cleaning teeth and especially for removing plaque and stains has also been put into practice (D3, example 8). The feature of using a particle size of 0.5-50 microns is common knowledge and has already been employed for the same abrasive purpose in this field, see document D4, paragraph [0026]. It would therefore be obvious to the person skilled in the art, to apply this feature with corresponding effect to an oral composition for abrasive purposes. Therefore the subject matter of claims 1-7 would not fulfill the requirements of Article 33(3) PCT.
